The county commission this week set Monday July 1 as the first day for the group to sit as a board of equalization.

Rubin Con. Co. Gets 3 Million US\$27 Job

Rubin Construction Company of West Palm Beach was apparent low bidder Tuesday on another 6.5 miles stretch of US27 from Lake Harbor to South Bay. Their bid for this job was \$3,475,000.00.

At a recent letting by the State Road Department, Rubin was low on another link in the new highway construction when they bid \$1,620,000.00 on 3.3 miles from Bare Beach to Lake Harbor.

Being successful on the two bids, the West Palm Beach concern now has a little over \$5,000,000.00 in contracts with the State Road Department on this highway that has needed rebuilding for many years. The Rubin concern is one of Florida's outstanding road construction firms and has a splendid reputation for doing excellent work in the state.

Is Your Child Ready For School

Is your six year old child ready for school? Has there been an examination by a doctor and dentist this summer? Is he or she protected against smallpox, diphtheria, whooping cough, lockjaw and polio? When was the last booster? Don't wait until September to check on all these things. See your family doctor at once or if unable to do this, contact the nearest Health Department Office.

For children who plan to enroll in Palm Beach County schools, a Verification of Birth is required. When you write or come to the Health Department Vital Statistics Office, you must give the child's name, date and place of birth, father's name and mother's maiden name. Do not delay.

State Sells 1000 Acres \$220-\$263

Almost 1,000 acres of land south of South Bay was auctioned off by the Internal Improvement Fund Tuesday for \$230,075.40.

The combination of five-acre tracts was split into two parcels with a 49.08 acre parcel in one section going for \$263 an acre to E. L. Parker of Miami and \$04.86 acres of another section going to Bill Bailey of Belle Glade for \$220 an acre.

The state acquired the land when its original owners, who subdivided it in 1912, failed to pay the taxes on it.

The land was well suited to the growth of sugar cane, said Van H. Ferguson, director of the Internal Improvement Fund, who auctioned it off.

Ferguson said Palm Beach County had been notified of the sale. In fact, he said, notification has been sent counties in such sales, but they "continue to say we didn't notify them."

Construction On New Federal Starts

Construction work has started on the new branch office of Everglades Federal Savings and Loan Association to be located in Pahokee. Braddock Construction Company of Belle Glade is the contractor. Wiley Tillis of Pahokee was low bidder on the job but the Federal contract, called for completion by October 1, 1963, and Mr. Tillis forfeited the bid.

The new branch building is located immediately north of the post office in Pahokee on a plot of ground purchased from A. J. Gamot. The piece of land is 150 feet facing Bacom Point Road and runs back to Main Street. The purchase price was \$30,000.00.

Funeral Services Mary Etta Curry

Funeral services for Mrs. Mary Etta Curry, 69, of Canal Point, who died Monday, were held at 3 p. m. Wednesday from Wetherington Funeral Home Chapel, Pahokee, with Rev. Robert A. Shelley, pastor of the Canal Point Methodist Church, officiating. Burial followed at Port Mayaca Cemetery.

Another Sugar Mill In Planning Stage

The Everglades section of Palm Beach county and its booming sugar industry got another shot in the arm this week when planning for construction of another huge sugar mill was announced. Plans will be futhered on Saturday when a group meets to get down to brass tacks on construction of the mill.

Site of the proposed mill would be about 14 miles east of Belle Glade, and it would serve 10,000 to 15,000 acres of canal land in the Gladeview Drainage District.

To get an idea of the scope of the proposed operation, the Belle Glade Co-Op began operations with about 20,000 acres of sugar cane, and built a \$12 million sugar mill to grind it.

Last month, the U. S. Department of Agriculture kept the baby sugar business in the Glades booming by removing acreage restrictions and lifting the lid off restrictions. In the past year, local sugar output has doubled.

It would be a cooperative enterprise much like the successful Florida Sugar Cane Growers Co-Op in Belle Glade, on a somewhat smaller scale.

Scouts Camp Out Manatee Springs

Fifteen Boy Scouts of Troop 628, accompanied by Scoutmaster and Mrs. Thomas Martinez and children, camped out in the Scout area at Manatee Springs the weekend of June 14-16. The Scouts pitched their own tents and did their own cooking. Their favorite pastime was swimming. Before returning home they stopped off at Silver Springs for several hours.

Troop 628 has been designated as a "pilot" troop to try out new advancement rules which will be adopted in 1965, if found to be effective.

Billy Boe and Eugene Cooper, both Eagle Scouts and members of Pahokee Troop 628, are serving as camp counselors, this summer. Billy is at Camp Arrowmount, Cullowhee, N. C. and Eugene is at Camp Tanah-Ketta near Jupiter.

Plans are being made for ten Scouts of the troop to attend Camp Tanah-Ketta next month. They will be accompanied by W. A. (Pop) Reynolds.

Mrs. W. E. McCall Family To Calif.

Mrs. W. E. McCall, her daughter, Kandi, and sons, Teddy, Mike and Pat, left this week to join her husband at Chowchilla, Calif. Before leaving Florida, Teddy will take the 4-H short course at Gainesville, while the others are visiting relatives in Bradenton and Gainesville.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The Palm Beach County Chapter of the American Red Cross looking ahead to the hurricane season has asked the County Commission for use of the Datura St. Office Building as a disaster committee headquarters in case of an emergency.

The Red Cross is now building a new chapter headquarters and during the building period are housed in temporary quarters at Palm Beach International Airport. Commissioners said the chapter, in the event of an emergency, could operate better from the office building.

The request was referred to the county engineer to work out details of the arrangement.

The county commission this week

retained special counsel to assist County Attorney Harry Johnston in testing the constitutionality of a legislative act which divides Lake Okeechobee.

The West Palm Beach firm of Jones, Adams, Payne and Foster, plus Attorney Ford L. Thompson, Tallahassee were retained by the commission.

The county intends to go into court to test the statute passed by the last legislative session which took Okeechobee away from Palm Beach County and divided the area between five bordering counties. The act not only took territory away from Palm Beach County but also authorized dividing gasoline taxes which originally were returned to Palm Beach County.

Veterans News

BY L. V. MCLELLAND
Glades Veterans Service Officer

All children and dependent parents of deceased veterans will receive an increase of about 10 percent in their monthly dependency and indemnity compensation payments as the result of a law enacted by the 88th Congress and signed by the President, the Veterans Administration announced today.

The increased payments will be automatic, and will be included in the July checks mailed to reach beneficiaries about August 1, 1963, L. V. McClelland, Glades Veterans Service Officer, explained. There is no need to write the VA.

A child, now receiving \$70 per month, will receive \$77 per month under the new law, McClelland pointed out.

Two children, currently receiving dependency and indemnity compensation checks amounting to \$100 per month, will receive \$110 equally divided between them under the new law.

Three children, receiving \$130 per month, will receive \$143 per month equally divided between them.

If there are more than three children, each additional child, now receiving \$25 a month, will receive \$28 a month under the new law.

In the case of dependent parents living together with an annual income of less than \$1,900, their present payment of \$50 each will be increased to \$55 each under the new law.

VACATION IN CAROLINA

Mr. and Mrs. A. R. Harrington, their daughters Janette and Nancy, and son, Ross, left Monday to vacation for several weeks in the mountains of North Carolina. They planned to spend most of their vacation in a cottage in Sherwood Forest, the Audubon Colony, at Cedar Mountain.

Wallis Jaudon and daughter, guests of Mr. and Mrs. Wiley Tillis.

Board Members To Study Cool Cars

County Commissioners this week admitted they too get hot under the collar.

Or maybe they were looking ahead, not with too much enthusiasm, to a long hot summer.

They decided to study the possibility of putting air conditioning units in all the cars driven by the commissioners — but at their own expense!

The weekend saw all members of the commission making a trip to Jupiter to help dedicate a new county park. It was a hot Sunday and it appeared that none of the commission wanted to arrive at the site with rumpled suits and wilted collars.

Most of them admitted they arrived in presentable condition because they made the trip in air conditioned autos.

They also admitted they had borrowed their wives cars to make the trip.

Now it seems what's good for the little woman is also good for the commission.

The board voted this week to have county engineer George Frost check the cost of putting cooling units in the five county cars which

are used by the commissioners.

They decided if the price was right, each individual commissioner who so desired, could purchase his own air conditioner, out-of his own pocket.

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unremitting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

Bartow Will Get Many New Homes

BARTOW—Plans to build new units at the Bonnie chemical plant of International Minerals & Chemical Corp. have been announced by General Manager Floyd B. Bowen. The new units will be utilized for the granulation of triple superphosphate and higher concentration of phosphoric acid.

Calling attention to the phosphate industry's efforts to air pollution abatement, Bowen said the new units will reduce the emission of fluorine from the plant. Plans for the control equipment to be installed have been submitted to the Florida State Board of Health.

Wellman-Lord Engineering, Inc., Lakeland, has done the engineering for the new units in cooperation with IMC's staff and is now beginning the construction which is to be complete by Jan. 1, 1964.

Chapel By Lake In WPB Pleases Many

It was standing room only for the first service in the Chapel By The Lake of First Baptist Church, West Palm Beach, this past Sunday evening at 7:45 p. m.: "The Service Under the Stars" were attended by 2500 persons with several hundred people unable to worship in the new outdoor Chapel, according to Dr. Jess Moody, Pastor.

The Chapel overlooks the Intracoastal Waterway in the heart of the downtown area.

Dr. Moody, who has spirited the construction of the new Chapel, calls it America's most beautiful outdoor worship area. The congregation attending the service heard the 100-plus voice choir with orchestra under the direction of Jack Day.

The 1,666 seat Chapel, the first of its type in America, has many features that set it apart from any other worship area. There are no steps in the Chapel, and all aisles are 6' wide with 40" between each row of seats. The Chapel's Baptistry is reputed to be the world's largest. The Baptistry is 62' by 12' and was designed with a dual purpose. When not in use, it may be drained and used as a large orchestra pit for religious dramas, concerts, etc. Rising out of the Baptistry is a New England Preaching Prow.

ing around the Chapel include over 70 trees of 3 varieties, and 1100 lineal feet of hedges with 34,000 square feet of sod. Complimenting the landscape is the Fountain of Living Waters and the Esplanade of States with reflection pool.

The 400 feet of walkways within the Chapel, called "Liberty Walk", are dedicated to religious liberty. Plaques imbedded in the cement show the names of Baptists who have contributed greatly to the religious liberty that is enjoyed in the United States today.

While normal seating of the choir is 100, extra space is available that will allow up to 200 choir members. The unusual design of the choir platform is that it has retractable risers and may be removed when not in use, thus making the stage area large enough for dramatic productions.

Other Chapel features include The Pastor's Walk, mooring area for boats, The Prow Fountain, continuous music for daily meditation, and ample parking. Facilities also

include permanent piano and organ that, when not in use, retract into waterproof compartments. Unseen behind the stage area is a choir robing room.

The Chapel's artistically concealed control booth acts as a central control for all lights, radio, television sound and inter-communications.

Dr. Moody, internationally known and heralded as one of the country's most acknowledged pulpit orators, calls the Chapel a combination of Esthetics and Evangelism, and feels that religious history has been made by the construction of this Chapel.

Miss Ruth Colvard In Beauty Contest

Miss Colvard, utilizing a voice trained for years by her mother and wearing a costume made by her minister father, carries the hopes of Pahokee into the Miss Florida Pageant being held this week in Sarasota.

The statewide competition is being held through Saturday, and the winner crowned Miss Florida Saturday night will be Florida's representative in the Miss America Pageant at Atlantic City, N. J., this summer.

Although Miss Florida Pageant contestants are judged in several phases, including swim suit and evening gown, heaviest emphasis is placed on talent; and as far as Ruth is concerned, her singing performance will be a family affair.

While Ruth took voice training during her just-ended freshman year at Stetson University, her mother, director of music at the First Baptist Church of Pahokee, was responsible for the development of her singing ability through the growing-up years. And her mother, who has helped prepare the talent routine, will be at the piano when Ruth performs at the pageant.

Ruth feels this complete family support gives her extra confidence with which to enter the stiff competition.

In the pageant as Miss Pahokee of 1963, Ruth's entry is officially sponsored by the Pahokee Chamber of Commerce. She was the 1962 Glades Harvest Queen and a former Sweetheart of Future Farmers of America, contest winner at the local, sub-district and district levels, finishing second in the state competition.

"Even as a little girl in North Carolina, I dreamed of maybe someday being in the Miss America contest," she admits. "The Miss Florida Pageant is the first step, and I would love to represent Florida through the year and in Atlantic City."

A brown-haired, brown-eyed beauty, 5 ft. 8 in. tall and measuring 36-24-36, she is majoring in education at Stetson. Her ambition is to become a sixth-grade teacher, the level at which "a lot of impressions are made on a child and a good teacher is badly needed," she believes.

The winner of the Miss Florida Pageant is awarded a \$1,000 scholarship by Pepsi-Cola Bottlers of Florida. An additional \$1,500 in scholarships will go to the four runners-up. Miss Florida will also receive \$500 to use in assembling her wardrobe for the Miss America Pageant.

PAUL VI TO BE CROWNED SUNDAY, JUNE 30th

Sunday, June 30, is a memorable day for members of Mary Church. The 65 year old spiritual leader of 550 million Catholics will be crowned at St. Peter's Basilica in Rome, exactly on the spot where his predecessor lay in state three weeks ago. A crowd of over 200,000 is expected to attend this ceremony. Pope Paul VI gained, at least two-thirds of the votes of eighty cardinals who were sealed in secrecy last week. The former Giovanni Batista Montini, now Pope Paul VI, was born in Concesio, a hamlet in the northern part of Italy. His father was a crusading lawyer and a journalist.
